Please make sure your name and class are noted on the order form and correct money accompanies the order.
This term the Roos class have been using collaborative structures across all subjects to improve our learning and communication skills. We have been analysing literature and took a trip to the movies to see the film The BFG. We spent lots of time exploring how the director turned the Roald Dahl novel into a film and we created our very own dream library.

On Mission Day we learned about St Vincent’s Orphanage in Vietnam and decorated superhero capes to send to the children.
